### PROJECTS

#### PRESCRIPTO:DOCTOR BOOKING APP

Developed a doctor appointment booking app that enhances patient-doctor interactions, showcasing expertise in React for dynamic UI and TailwindCSS for modern, responsive styling. Mobile-friendly design for an optimal user experience.

Technologies used: React, TailwindCSS

URL:<https://astonishing-alpaca-b84931.netlify.app>

#### TOMATO:FOOD DELIVERY APP

Built 'Tomato,' a responsive food delivery app demonstrating proficiency in React and JavaScript for interactive, user-centric interfaces. Emphasized clean UI/UX design, efficient CSS layout, and seamless, cross-device functionality.

Technologies used: React, TailwindCSS

URL:<https://sage-smakager-7d0231.netlify.app>

#### ITASK:TODO LIST APP

iTask is a to-do list app demonstrating my skills in creating responsive web applications with full CRUD functionality using React. The project features a clean, user-friendly interface, efficient CSS layout, and seamless cross-device performance.

Technologies used: React, TailwindCSS
